Remote Viewing Story

- Client came to me to help sell her condominium.
- I was able to “see” her condominium although I was not there.
- Through a series of “staging” suggestions from spirit, her apartment sold in record time during a huge real estate recession.

Medical Intuition Story

- A client came to me complaining of being “haunted” by ghosts.
- I did a scan of her to see if there were any medical reasons for her experiences.
- Saw thyroid was underactive. Confirmed.
- Then saw her gonads (uterus and ovaries) were underperforming. She barely menstruated. Confirmed.
- She had never been pregnant. In her culture (Indian) it was very important for her to have children.
- Suggested she seek help from a physician and mental health professional for her troubling visions.

Quantum Physics Says

- Quantum science theorizes how “intuitive knowing” through non-physical channels is possible.
- David Bohm, “the father of new physics,” in his book, “The Undivided Universe,” writes, “Each region of space-time contains information about every other point in space-time.”
- This suggests if you were able to access a specific “region of space-time,” you would have omniscient capabilities or be labeled an “intuitive.”

Exercises Begin

- PARTNERS. Assign partners for class.
- ALONE? If you are working alone then find a partner with which to work from friends, family or Facebook support group, Soul Psychic Healer.
- LOVE. Do love formula on next slide to obtain best and most consistent results.

LOVE Formula

- Prepare with the LOVE formula for next exercise
- **Let go in meditation.** Uncross arms, legs, take 3 deep abdominal breathes. (Youtube.com 8 minute minimum Theta or Third Eye meditation if you have more time.)
- **Open in a prayer.** “Dear Spirit, Provide accurate remote viewing information in love & light with automatic energetic connection & disconnection. And so it is.”
- **Vibrationally align** with the person for which you will receive remote viewing information.
- **Entirely receive** what comes through.

Exercise One: Remote Viewing With Pictures

- This exercise can be done long distance or in person.
- LOCATION CHOOSE & FOCUS. Ask your exercise partner to choose, then visually focus on, a remote location such as a room in his or her home.
- RECEIVE. Clear your mind as the psychic, then begin to write down what you remotely view or “see” in your head to share later or share now.
- SHARE. PREPARE TO BE AMAZED!

Exercise Two: Remote Viewing

1. YOU CAN DO THIS ON YOUR OWN LATER. In online workshop Facilitator sends the picture.
2. Prepare by doing the LOVE formula beforehand.
3. Have a friend hold a picture of a post card, tarot or angel card or other picture in his or her hands. Make sure you cannot see the picture.
4. Have your friend concentrate on this picture and send you thoughts about it.
5. Report what you get.

Exercise Three: Remote Viewing

YOU CAN DO THIS ON YOUR OWN LATER.

Prepare by doing the LOVE formula beforehand.

1. Set an agreement with a friend that at a certain time during the day he or she is going to send you information about their location. Of course, make sure you will be available at that time to receive.
2. As an alternate you can have your friend concentrate on a room in his or her house or actually be seated in this location when you connect and use this as the object of your receiving.
3. Receive, record & report all the information you get.

Exercise Four: Remote Viewing (can be done alone)

YOU CAN DO THIS ON YOUR OWN LATER.

Prepare by doing the LOVE formula beforehand.

1. Take a deck of Angel cards, playing cards, Tarot cards or pictures.
2. Turn them face side down and mix them up.
3. Choose a card without looking at it.
4. Sit and receive what you see for this card.
5. This is a little more difficult to do than Exercises One and Two because you do not have the consciousness of another person sending you the information.

Medical Scanning

- Once you know how to do the L-O-V-E formula and begin working with subjects you will find you have access to all sorts of information.
- At times you may “feel” the information. Feeling is the first sense. At others, you may “hear” the information as a voice in your head. Other times you may “see” the answers.
- Medical scanning is related to Remote Viewing, b/c it is primarily visual. However, when you actually do it, you might feel something when you visualize a particular area of a client’s body, rather than see anything.
- For example, I was doing a medical scan of a client during her reading. I started by visualizing her body. All I did was imagine I saw an outline of her body in front of me.

Medical Scanning

- Then I started at the top of her body at her head. As I simply focused on her head asking spirit to reveal to me her health in this area, with laser like concentration, I felt like I had touched a raw electrical wire. Ouch!
- As I continued in this area I felt tired, dizzy, anxious and worried. I saw the color red around her head. Lastly I heard the words, “stress, worry, fear.”
- When I reported this to my client she confirmed she was extremely worried about so many things in her life she just could not seem to quiet down or ease her tension.
- We discussed perhaps she might want to seek the help of a counselor or doctor to see if she could get therapy of some sort to help.

Medical Scanning

- It is important to understand that unless you are a licensed medical professional, you should never make a medical diagnosis. You must always refer to a licensed medical professional.
- As well, it is important to never cause alarm in your subject. If you get the message the client has a potentially serious illness, simply state a medical check-up is recommended. Any additional validation you get can be relayed to the client, but be careful to not cause panic or fear.
- Your work is to advise, but keep your recommendations conservative. Remember psychic perception is never 100% accurate (even though some psychics might claim they are). So if you are wrong you could have needlessly instigated panic.

Medical Intuition: Prepare with LOVE Formula

- Prepare by doing the LOVE formula before beginning.
 - Let go in meditation
 - Open in prayer. Dear God please allow for accurate messages in love and light and highest good of all. Amen.
 - Vibrate in alignment. Connect your energy field to the subject of reading.
 - Entirely receive.

Exercise: Medical Scanning

Do the LOVE formula on previous page before continuing.

1. Find a subject with which to work that you do not know well. (Class use assigned exercise partner.)
2. Visualize an outline in your mind's eye of subject's body.
3. Begin to scan from head down using scan list on slide 18.
4. As you see, feel or hear anything record,
5. Report to your exercise partner to get confirmation.

Exercise: Medical Scanning

6. You will be amazed at the results!
7. This exercise can be done over and over again with different people or even those you know well who have a new pain or illness in their body.
8. Always remember to recommend a licensed medical professional as needed.
9. Don't worry if you do not get anything.
10. With repetition you will get results.
11. Remember to be in theta trance state when you do it. Will definitely improve your results.
